THREE CENTS

WILSON LEAGUE IDEA IS SEEN IN ARMS MEET

Gerard, Former Ambassador,
Says It Returns Like
Cat

WELCOMES IT

Declares, However, That
Outlook Is Very Discouraging

BY JAMES W. GERARD
(Former Ambassador to Germany)
(Copyright 1921 by I. N. S.)
WASHINGTON, Nov. 30.—Two
speeches—and one of these throwing
back to old fears and hatreds—some
behind scenes talk of the powers
abandoning the right to their own
courts in China—backstairs talk of an
association of nations—nothing more.
Meanwhile Italians burn the French
flag, Curzon is on the war path again,
miles away.

If Germany is as powerful as much
to be dreaded, as Briand said, then
the obvious thing to do is to invite
Germany into this conference, cut
down the impossible indemnity, re-
store stolen upper Silesia and so re-
move the causes of future wars.

Call it what you will, the league of
nations idea comes back like the pro-
verbial cat. In February last Presi-
dent Harding told me he hoped to see
the representatives of the great powers
in conference in Washington and that
he hoped the outcome would be an
association of nations. We, who
fought for the league, will welcome it,
travelling under no matter what
name. With Bryan, I advocated ac-
cepting the league with the Lodge res-
ervations. As time goes on and the
intense racial antipathies of Europe
are disclosed, we see that years of
dreadful war in the Balkans first and

BIBLE STUDENTS PREDICT SCOURGE UPON THE EARTH

Coshocton followers of the Interna-
tional Bible Students Association have
received copies of resolutions passed
by the association in convention
at Washington November 27 mem-
orializing the International Arms Con-
ference.

The resolutions set forth that war
is a relic of barbarism and that the
principles taught by Christ preclude
consecrated Christians from engag-
ing in war; that the ruling factors
of Christendom are financial princes,
statesmen and clergymen; that the
representatives of the ruling classes
at the conference have before them a
laudable object; that the end desired
cannot be attained by disarmament;
that Bolshevism is a menacing mon-
ster and the destruction of all law and
order is threatened; that the problem
of averting disaster requires more
than human wisdom; that the king-
dom of Christ is at hand; that within
a short time His Kingdom will be es-
tablished and the old order of things
completely gone; that the proper
course for the peaceful establishment
of Christ's Kingdom according to
Bible prophecy is:

(1) Let the financial princes cease
exploiting, exploiting and deceiving
the people and let them use their
power for the general welfare of the
people.

(2) Let the statesmen cease to act
as instruments of selfish powers and
represent the interests of all the peo-
ple.

(3) Let the clergymen and reli-
gious teachers divorce themselves
completely from commercial and po-
litical affiliations, recognize God's
word as truth and honestly and faith-
fully teach the people the principles
taught by Jesus.

The resolutions call attention to
the fact that the prophecies clearly
indicate that if the divinely prescrib-
ed remedy be ignored there will surely
follow "a time of trouble such as
the world has never known."

Thieves Get Pennies At Station In Dresden

Bloodhounds were expected in Dres-
den Tuesday to trail the thieves who
broke into the W. & L. E. railroad sta-
tion there early Sunday morning.

Altho the amount reported secured
by the robbers is comparatively small,
officials are taking precautionary mea-
sures in attempting to apprehend the
men suspected of robbing the place.

It is believed that the Dresden sta-
tion was entered by the same band
which is responsible for robberies at
New Concord, Cambridge, Warsaw
and other small villages.

Just \$2 in pennies were taken. En-
trance was made thru a window.

KILLED WOMAN FOR FIFTY DOLLARS, IDLE MAN CONFESSES

Mrs. Betty Sharples, her little son Clarence, and Thomas F. Catherwood.

Sound of mind and in perfect
physical condition, but out of
work and in need of money,
Thomas F. Catherwood of Chi-
cago has confessed that he coolly
murdered Mrs. Betty Sharples,

sister of his brother-in-law, to ob-
tain \$50, which the young woman,
about to become a mother, had
saved for Christmas presents.
While Catherwood was murder-
ing the woman her little son

Clarence, thirteen months old, lay
in a cradle nearby. He was cry-
ing when the father returned
from work and found his wife's
lifeless body. Catherwood ex-
presses no regret over the crime.

PROPOSAL FOR THE REDUCTION OF ARMIES BROUGHT FORWARD BY ITALY REJECTED AT ONCE BY FRENCHMAN

PHILLIPS CAR IS STOLEN FROM THE BARN, W. LAFAYETTE

A reward of \$25 for the return of
or information leading to the return
of a Buick four touring car stolen
from the garage of R. S. Phillips,
West Lafayette Tuesday night, was
offered by Mr. Phillips Wednesday
morning.

The car bears license number 562-
558, and is a 1917 model.

A lock on the door of the Phillips
garage was wrenched apart. No
clue to the identity of the thief
had been found Wednesday morning.

TIME OF POPULAR OPPOSITION PAST; SALVATION SOUGHT

The special service in the First
Baptist church last night was at-
tended by a large and appreciative au-
dience. The song service, led by a
chorus choir under the direction of
the pastor, was most heartily enjoyed
and participated in by the congrega-
tion.

"There is no popular opposition to
salvation today," said Rev. Edmond-
son last night. "Everybody wants to
be saved, but they want to be saved
in their own way. The rich young
ruler wanted to be saved but he
would not give up his money."

"Doesn't it seem strange that this
fine young fellow because he lacked
only one thing? Just one thing lack-
ing has caused my watch to lie to me
ever since last Saturday. The one
thing supplied, it tells the truth about
the time."

"We are living in an idolatrous na-
tion. What is an idol? Anything
that takes the place of the living God
as the master of your life. Whatever
keeps you from God is the one thing
that must be remedied if you would
be saved," Rev. Edmondson conclud-
ed.

His topic this evening will be "Two
Theives." He will have some char-
acteristically pointed things to say in
the sermon tonight if it was intimated
at last night's meeting.

COULDN'T GET IN JAIL ONE WAY SO THEY TRY ANOTHER

VANCOUVER, Wash., Nov. 30.—
Three vagrants applied to the city
jail here recently for admission,
claiming that they were cold and hun-
gry. They were refused. Thereupon
they entered a restaurant, ordered
and ate a good breakfast, and a short
time afterward were given lodging in
the jail at the request of the cafe own-
er when they failed to "dig up."

BY ALLAN L. BENSON

WASHINGTON, Nov. 30.—While
Secretary of State Hughes and the
spokesmen for European nations deny
there was any acrimonious tilt be-
tween Premier Briand and Sena-
tor Schanzer last week, it was learned to-
day that Italy had brought forward a
proposal for reduction of land arma-
ment which was rejected by Premier
Briand.

The story of Italy's failure is an in-
teresting chapter of the secret pro-
ceedings of the conference.

According to an authoritative source
here is what occurred in the secret
meeting on land armament:

Italy made a proposition looking to
radical reduction of land forces in
Europe. It came at the close of M.
Briand's speech, in which he justified
France's maintaining the greatest
standing army in Europe. Senator
Schanzer suggested that if France
retained a large army merely because
of fear of Germany, France doubtless
would be willing to join with Italy in
bringing about a reduction of the land
forces of Belgium, Poland, Hungary,
Yugo-Slavia and Czechoslovakia.

Senator Schanzer said the arrange-
ment contemplated no reduction what-
ever in France's army. France might
have as large an army as she cared
to maintain. All Italy asked was that
France join with her in bringing
about a sharp reduction of the land
forces of Europe.

M. Briand immediately rejected the
proposal. He expressed emphatic
opposition to any interference with
European land forces by the confer-
ence.

It was this incident that served as a
basis for reports that there had been a
split between Italy and France.

DIPHTHERIA CLAIMS 8-YEAR-OLD GIRL

Death due to a week's illness from
diphtheria claimed Mary Vykov, the
eight-year-old daughter, of Nick Vi-
kov, Austrian, who makes his home in
a freight car with his son, at the
Penna. railroad tower, north of this
city. The child died Wednesday
morning at 2 o'clock.

The child is survived by her father
and two brothers. One brother lives
in Barbours.

The funeral services will be held in
the People's Undertaking parlors,
Thursday afternoon at 12:30 o'clock.
Burial will be made in South Lawn
cemetery.

The father and son are members of
the railroad section gang, who occu-
py freight cars at the tower as
homes.

John Potter, 33 north Fifth-st., re-
ceived word Wednesday from his son,
E. E. Potter, former manager of the
Western Union Telegraph Company
office at Norfolk, Neb., to the effect
that he expected to take a similar po-
sition with the Western Union Com-
pany at Oklahoma City today.

Mr. Potter left Norfolk on Novem-
ber 25.

DOCTORS EXAMINE ORGAN TAKEN FROM MISS RAPPE'S BODY TO MAKE REPORT

One Witness For The De-
fense Faces Charge Of
Perjury

SAN FRANCISCO, Nov. 30.—Out-
side the courtroom in which the trial
of Roscoe "Batty" Arbuckle drew to a
close today were being enacted two
scenes of greater interest than the
trial itself.

Both of them are vitally connected
with the case, but only one of which
was destined to come to the attention
of the jury, which will decide the
comedian's fate.

In a laboratory, a mile from the
court room three physicians and their
assistants made a microscopic exami-
nation of an organ taken from the
body of Virginia Rappe, with whose
death Arbuckle is charged with re-
sponsibility.

Their report was expected late to-
day. It was to settle definitely the
hard fought and vital question in the
Arbuckle case of whether Virginia
Rappe suffered from a chronic disease
which could have caused her death.

In another courtroom in the hall of
justice, Mrs. Minnie Neighbours, de-
fense witness was to have a hearing
on a charge of perjury.

The storm broke about Mrs. Neigh-
bours' head yesterday when two wit-
nesses called for the state directly
contradicted the statement of Mrs.
Neighbours on the stand that Virginia
Rappe had visited Wheeler Springs
last August. Immediately Brady an-
nounced his intention of having a war-
rant issued for her arrest.

The warrant was drawn up but when
assistant District Attorney Fitzgerald
presented it in superior court the
judges turned down the warrant. Last
night Brady acted on his own initia-
tive. He ordered the arrest of Mrs.
Neighbours. Gavin McNab chief coun-
sel for Arbuckle arranged for her to
be taken forthwith before Judge Fitz-
gerald where \$5,000 cash bail was fur-
nished by McNab.

McNab announced the defense would
support Mrs. Neighbours in every
way. He declared that Mrs. Mary
Poulin, one of the state witnesses,
who recanted her statement in court
yesterday. He will endeavor to
show that her testimony in no way
contradicted Mrs. Neighbours.

The trial is marking time today
waiting for the doctors' report on the
examination of the bladder of Miss
Rappe.

Frank Gosser Tells Of Trip To Coast In Letter To A Friend

Charles Aland of the Clow plant is
in receipt of a letter from Frank Go-
sser, formerly an employee at the Clow
plant, in which Gosser tells of his trip
to his new home in Inglewood, Cal-
ifornia.

The California family, formerly
agrees with the claim, for Mr. Gosser
says in his letter that each member
of the family has gained weight rang-
ing from 5 to 15 pounds.

He mentioned passing thru Zion
City, which was placarded with signs
against tobacco, but he says he chewed
his plug, and drove serenely on.

The Gosser covered 4,327 miles in
their trip, following the Atlantic and
Pacific highway for the greater part
of the way.

JAPANESE DELEGATE TO THE CONFERENCE PREDICTS REJECTION OF AMERICAN SCHEME

Naval Expert Says Japan
Will Throw Parley Into
Winter Siege

WANTS RATIO CHANGE

Says Defensive Fleet Is Idle
Talk, Dangerous To Na-
tion's Security

WASHINGTON, Nov. 30.—Uncondi-
tional rejection of the American pro-
posal for naval reduction to a 5-5-3
basis will be Japan's final ultimatum
to the conference, it was stated today
by one of the chief naval advisers of
the Japanese delegation.

"The Tokyo delegation will throw
the armament and far east conference
into a winter siege rather than re-
cede from their demand for a 10-10-7
ratio," the high naval expert declared.

In explaining Japan's determined
stand, the Nipponese naval authority
adopted a paraphrase of Gen. Grant's
famous declaration, "we will fight it
out along this line if it takes all winter."

At the same time, it was declared
that Japan has no intention of "bolt-
ing the conference" irrespective of
the outcome of the naval delibera-
tions.

The delegation of the island empire
is in full accord with the Hughes pro-
posal "as a principle" but is irrevoca-
bly opposed to the American "inter-
pretation."

The Americans will not agree to
the Japanese method of determining
existing naval strengths, said the na-
val authority.

"Japan cannot and will not agree to
the American method of determining
actual naval strengths, we cannot
and will not compromise on the
American plan."

The naval experts said that the re-
sult of such a deadlock means that
the issue will be thrown to the chief
delegates of the three powers where
Japan will maintain the attitude.

"The Hughes plan is inconsistent
with itself. In the preamble to his
plan Mr. Hughes said, it is not ex-
pected any nation will disarm itself to
a point of endangering its national
safety. In his program for disarmament,
5-5-3. In other words, Japan is al-
lotted a navy sixty per cent in tonnage
of the fleets of Great Britain and
the U. S. It is the contention
of my colleagues that this endangers
the national safety of Japan."

"It is the Japanese contention that
this plan has been evolved from a

MRS. LILLIBRIDGE, 90, DIES AT HER HOME IN TYNDAL WEDNESDAY

Mrs. Mitty A. Lillibridge, aged 90,
died at the home of her daughter, Mrs.
Mary Jenkins, of Tyndal, Wednesday
morning at 5 o'clock from infirmities
of age. She had been in failing
health for the past four months.

Mrs. Lillibridge's maiden name was
Miss Mitty A. Holmes. She was born
January 18, 1831 in this county. She
married Moses L. Lillibridge in 1849.
He preceded her to the grave 21 years
ago.

Mrs. Lillibridge was a member of
the Warner church.

She is survived by her two daugh-
ters, Mrs. Jenkins, of Tyndal, and
Mrs. Charlotte Reed, of Canton, and
three sons, Dave Lillibridge, of Cones-
ville, Isaac Lillibridge, of this city
and Alonzo Lillibridge, of Tyndal.

A brother John Holmes, lives in
this city.

The funeral services will be held
Friday at 9 a. m. at the Warner M. E.
church near Tyndal in charge of Rev.
Mr. Summerville, of Conesville. Burial
will be made in the Warner church
cemetery.

RAILROADERS WANT INCREASE OF WAGE

CHICAGO, Nov. 30.—The Railway
Employees' Department of the A. F. of
L. has notified 220 railroads that its
members want wage increases total-
ing 13 cents an hour. The union de-
mands the revocation of a recent con-
tract reduction in July and a further
increase of five cents an hour. Ap-
proximately 400,000 men are affected.

The roads have initiated demands
for further cuts in pay. The issues
will come before the United States
Railway Labor Board in a short time.

RECONSTRUCTION OF RUSSIA ESSENTIAL TO WORLD'S GOOD

Declares Hugo Stinnes, Ger-
man Industrial Magnate

ACTION IMPERATIVE

Urges Haste In Extending
The Needed Assistance

BERLIN, Nov. 30.—Hugo Stinnes,
German industrial magnate and bank-
er, who recently visited London urged
upon Premier Lloyd George the nec-
essity of reconstruction of Russia as
one of the chief means of rehabilita-
tion of Germany. It was revealed to-
day.

After remaining silent since his re-
turn from London, answering all
questions with a smile and a shrug of
the shoulders, he gave a report of his
London trip.

The need for reconstruction of Rus-
sia with outside assistance was em-
phasized today by Mr. Stinnes.

"European recovery depends to a
large extent on Russia. Germany does
not possess any raw materials but
England and America have them in
abundance."

"The allies therefore must manufac-
ture one half of European demands,
German railways are in bad condition.
They cannot bear the brunt of such
heavy traffic as would be put on them
if Russia were opened up. They must
be reorganized and taken over from
the government into private hands."

"It is of prime importance that
haste be made in extending the needed
assistance."

MOORE DRAWS FINE OF \$100 AND COSTS

After changing his plea from not
guilty to guilty, William Moore, Kenil-
worth-av, was fined \$100 and costs by
Mayor W. S. Tish late Tuesday after-
noon on a charge of possessing appar-
atus for use in the manufacture of in-
toxicating liquor.

Moore's home was raided more than
a week ago and a complete still found
by the officers. He pleaded not guilty
to the charge placed against him for
possessing the still, and his trial was
set for 7:30 Tuesday evening.

C. O. Turner, attorney for Moore
appeared before the mayor Tuesday
afternoon with an offer from Moore
to change his plea. In addition to the
\$100 fine, a \$100 fine was suspended to
insure future good behavior, Mayor
Tish said Wednesday.

CHICAGO, Nov. 30.—The railroad
labor issue which a few weeks back
almost precipitated a nation wide
strike is expected to come to the front
in the immediate future.

Tomorrow the United States Rail-
way Labor Board will make public
its long awaited decision on working
rules and agreements affecting all
employees in the United States.

The board has been working un-
ceasingly for months on the decision
which will contain more than 100
new rules and will be most compre-
hensive and far reaching.

Special significance is given the
new working code at this time which
is earlier than anticipated for two
reasons:

1—It opens the way for a new crisis
in the event the unions are not satis-
fied with the revisions regulations.

2—It paves the way for immediate
applications for wage reductions on
the part of the railroads, a move
fraught with dangerous possibilities.

The situation may come to a head
within a few weeks in the event
that both the men and the roads are
dissatisfied with the decision, which
is considered quite likely. It was
pointed out today that when the board
last summer drafted only seven work-
ing rules, both sides expressed dis-
satisfaction.

Tension is regarded as most certain
to follow tomorrow's decision as the
question of working rules is consid-
ered by the men fully as important
if not more so than the question of
wages.

It will be recalled that of the 2,000,
000 men involved in the strike move-
ment, 1,491,663 declined to re-
spond to the summons of the "big
five" on the ground that they were
more concerned in the board's forth-
coming decision on working rules
than they were on the 12 1/2 per cent
wage cut issue, which was then the
basis for the strike call. This major-
ity faction constituted the railway
employees' department of the A. F. of
L.—the shopcraft unions.

It is the shopcraft unions that will
be principally affected by the board's
decision.

The questions of overtime pay, Sun-
day pay, the piece work system, and
the skilled men in unskilled jobs, are
among the important matters expected
to be considered in the decisions.

These questions have been bitterly
debated before the board for months
by representatives of the roads and
the men. The roads complained that
they are being put to great unnece-
sary expense by futile union rules
and restrictions and asked for numerous
changes distasteful to labor, such as
inauguration of the piece work sys-
tem. Labor claimed it was fighting
for the retention of regulations that
represent enlightened public opinion
and the progress of labor.

Any action taken by union officials
it was stated today, would be taken
in the light that a brand new issue
had been created. There is no strike
call contingent on the decision now
pending.

LARGER AUDIENCE HEARS SECOND OF K. OF P. CONCERTS

The final rendition of the concert
by the Knights of Pythias, 23 piece
band, was received by a much larger
and more enthusiastic audience Tues-
day night at the Pastime theatre than
on Monday night.

The musicians duplicated a splendid
musical program ably assisted by Mr.
Harold Brink, baritone soloist, Mrs.
Harry B. Keith, soprano soloist, Miss
Kerna Radford, reader and Little
Miss Josephine Harrington Jones, in her
clever reading of a eulogy to a dog.

Much credit is due Conductor Man-
uel Yingling for the showing the band
made. Under the personal direction
and careful training of Conductor
Yingling the band played two of the
best concert Monday and Tuesday
nights that Coshocton music lovers
have enjoyed for some time.

"The Golden West" march, com-
posed by Mr. Yingling was one of the
most popular numbers on the second
night's program.

The second concert will be given at
the Pastime theatre on Monday and
Tuesday nights, December 26 and 27.

HOTEL MEN SHOW LEGAL EVIDENCE ON THE REGISTER

POUGHKEEPSIE, N. Y., Nov. 20.—Charles Machord and Theodore Roth, employees of the St. Regis hotel, New York, testified that Stillman occupied a suite at the hotel with his wife, Mrs. Pitt Stillman in February, 1918. They produced the hotel's register showing Stillman registered with his wife February 15, 1918.

Guy was born in November of the same year. The evidence was declared by Mrs. Stillman's attorneys and John E. Mack, guardian of the boy whose paternity is disputed by Stillman, as indisputable evidence that under the law the millinaire is the child's father.

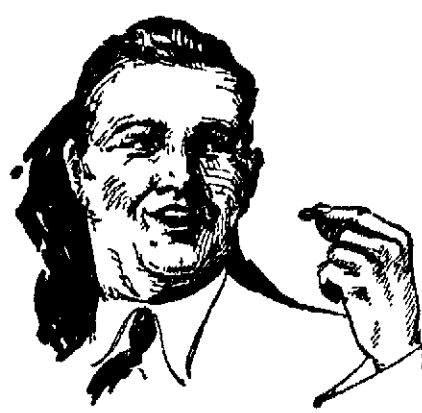

In the meantime Mrs. Stillman's attorney and John Mack, guardian for Little Guy, will endeavor to expedite plans to have a commission appointed to take testimony of witnesses in Canada.

Rumors reached here today that some of the Canadian witnesses who gave damaging testimony against Mrs. Stillman and Fred Beauvais, the handsome Indian guide, had recanted certain cardinal features. It is understood they will be recalled during the hearing in Canada. If they recant parts of the previous testimony in Canada under oath it will not make them liable to prosecution on charges of perjury in the United States, it was stated, since perjury is a non-extraditable crime.

Machord testified that he was one of the clerks at the hotel when the Stillman party registered. He said

Eat Anything You Like and Don't Worry—Stuart's Dyspepsia Tablets Relieve Sour Stomach, Belching, Gas and Acid Conditions Due to Indigestion

Simply Chew a Stuart's Dyspepsia Tablet After Meals—They Taste Good

No matter what you eat or drink, even though it be just a glass of sweet milk, the stomach may rebel and sour almost immediately. In such cases one or two Stuart's Dyspepsia Tablets furnish the alkaline effect to offset the acid condition. Quite often the stomach may be overcrowded with partially digested food.

A cold bottle of beverage at such times may add to the difficulty and there is gasiness, a bilious taste, and other distresses due to indigestion. Travelers may save themselves much of the discomfort of wayside eating by having a box of Stuart's Dyspepsia Tablets with them as they can be had in almost any drug store throughout the U. S. and Canada.

RELATIONS BETWEEN FRANCE AND BRITAIN NEAR BREAKING POINT

LONDON, Nov. 29. — The accord existing between Great Britain and France is on the point of dissolution, according to a statement in the Daily Express today.

The Daily Express made a great display of the report, putting the responsibility on Marquis Curzon, the British foreign secretary. The newspaper demanded the resignation of the foreign secretary.

Relations between Great Britain and France have been strained for some time, particularly since France entered into an agreement with the Turkish Nationalists.

WILL TEST MARTIAL LAW PROCLAMATION

County in Which It Is To Operate Said To Be Quiet

WALSENBURG, Colo., Nov. 30.—Despite the defense of Governor Oliver H. Shoup's declaration of martial law in Huerfano-co by Attorney General Keys, John McLennan, president of District 15, United Mine Workers, leading the strike against the Colorado Fuel and Iron Company, will test the proclamation's legality through a court fight.

It is Keys' contention that it is not necessary that there be actual "riot and insurrection." He declared that when the governor is led to believe events are tending toward a violent uprising he is authorized to declare a state of martial law. Under such an interpretation it appears the governor has the right to declare martial law in every county or state, provided he believes insurrection may develop.

Despite the public confession that there is no riot and tumult in Huerfano-co, the proclamation reads, in part:

"A state of armed insurrection and rebellion exists in the county of Huerfano, State of Colorado, and tumult, riot and bloodshed prevails therein. Now, therefore, I, Oliver Shoup, do hereby proclaim and declare the said County of Huerfano in a state of insurrection and rebellion."

An interesting fact has developed in connection with Shoup's proclamation. It is that no other declaration of martial law is necessary to give State rangers authority to take charge in the neighboring County of Las Animas, the proclamation of martial law issued there in the strike of 1913-14 never having been withdrawn.

Orders have been issued all persons in the mining camps to deliver to the State all arms and ammunition, that State rangers are on duty to prevent picketing Adjutant General Patrick J. Hamrock's "general orders, No. 1," make clear that civil authority in the County is to yield precedence to the military. Section three reads:

"The military authorities will assume jurisdiction and control of all criminal offenses arising out of the present strike situation and the sheriff of Huerfano-co and the district attorney of the third individual district are ordered to hold all such offenders for the disposition of the commanding officer."

SAYS ELIHU ROOT IS ONE OF LEADERS IN ASSOCIATION PLAN

WASHINGTON, Nov. 30. — Elihu Root was revealed today by Senator James E. Watson, of Indiana, one of the administration leaders, as one of the leaders of the association of nations plan by which President Harding seeks to give permanency to the Washington conference.

"It is not generally known," Senator Watson said, "that an association of nations plan at Chicago was written by Elihu Root. Mr. Root is a strong advocate of the association of nations."

"We can enter such an association and that is far as we can go. There is no reason why such an association of nations as the administration is committed to and in favor of which the Republican party went on record at Chicago cannot bring about an enlarged conference on a permanent basis and for a friendly discussion between the nations of international questions."

Coshocton Case To The Supreme Court

COLUMBUS, Nov. 30. — The state supreme court today sustained the motion for an order directing the Coshocton county appellate court to certify its record in the case of W. W. Frederick vs. Warner Hay et al.

LAURA KELLY, 4, ENTIRELY CURED OF HER ASTHMA

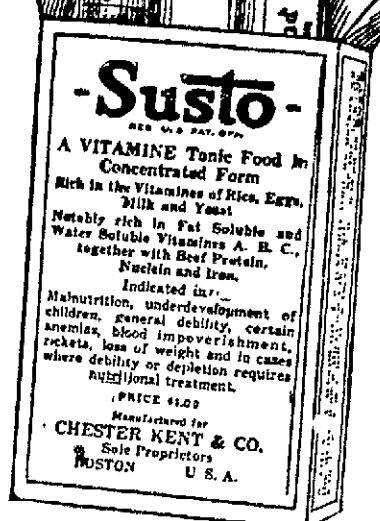

Kerker Remedy Given Full Credit—Doctor Said She Couldn't Live

"My little girl, Laura, aged 4, had the asthma so badly that the doctor didn't think she could live another day," said Mrs. Helen Kelly, 623 May Street, Zanesville, Ohio, in relating to the Kerker Remedy. "She wheezed so badly that you could hear her away out in the yard. Many times she could not lie in bed; we had to hold her. She had the asthma since she had the flu in November, 1917. A neighbor suggested to us that we try Kerker's Asthma and Hay Fever preparation. She got wonderful results from the very first bottle. She has taken three bottles now and is just as well as can be."

The Kerker remedy is the finest thing I have ever heard of and is the only medicine that did Laura any good. She is just as well now as any of my other children.

(Signed) Mrs. Helen Kelly.
Kerker's Asthma and Hay Fever Remedy is sold in Coshocton exclusively by druggists Siegrist & Williams; in Newcomerstown by Geo. A. Beers.

Yeast Eaters

Susto is rich in Yeast, Rice, Milk Eggs, Iron, and Beef Protein— You'll like its taste

APPROVED BY SCIENTISTS
after months of clinical tests at one of
America's greatest medical colleges.

SUSTO contains all the Vitamines of yeast and in addition the Vitamines of rice, eggs, milk, beef, etc., all the vitamines, A. B. C., which are absolutely necessary to prevent starvation and promote growth and strength.

If you are out in a boat for a week without food, SUSTO alone would sustain life and nourish you.

SUSTO contains in addition to all the known Vitamines iron, calcium and protein which makes it the most perfect tonic food obtainable.

Not one ounce of SUSTO was offered to the public until its tonic food value was definitely established after months of practical tests by Dr. Philip B. Hawk, Professor of Physiological Chemistry of Jefferson Medical College.

SUSTO therefore is the only tonic nutritive on which thousands of dollars were spent in clinical and scientific tests to prove its therapeutic and food value before being placed on the market.

These tests extended over months and proved indisputably that SUSTO is a most efficient ration balancer and if added to the daily food three times a day will remedy and prevent malnutrition and its allied diseases.

MILLIONAIRE SOAP KING'S FAMILY GEMS TAKEN BY BANDITS

CINCINNATI, Nov. 30. — Jewelry valued at \$100,000 was stolen last night from the Glendale residence of William Cooper Procter, millionaire soap manufacturer, after four young bandits at the point of revolvers, had forced Mrs. Procter and her sister Miss Mary Johnson and a servant into the cellar.

Mr. Procter was absent on a business trip and the other male employees of the house were also away.

While two negroes guarded the woman, the other two bandits, both white, ransacked the house.

The door bell rang about 8:30 and when Mrs. Procter opened the door she was confronted with four revolvers and told to step back.

After entering the house, the robbers demanded to know where the valuables were kept, saying: "We didn't come all the way from Toledo for nothing."

They were told the valuables were upstairs. A diamond necklace valued at \$25,000 was among the loot. No tangible clue has been found of the robbers.

BRITAIN SHIES AT SCHEME OF HARDING

LONDON, Nov. 30.—The British have adopted an attitude of the utmost caution toward President Harding's new suggestion for a society of nations. Only two newspapers printed editorial comment today.

The Times, believed to reflect British official opinion accurately, said: "It is very interesting but we feel that reticence is the most prudent policy until American opinion both in and out of congress has pledged itself to definite proposals."

The Westminster Gazette supported the Harding suggestion, calling it profoundly "important and profoundly right."

The same cautious attitude of the press was reflected in official circles. Inquiry by the International News Service in official quarters close to Premier Lloyd George brot out views that might be grouped concretely as follows:

It's an idea to which no one could take exception, but it is to be feared that it is impracticable.

HAVE TO GET UP NIGHTS FOR BLADDER RELIEF?

Try Simple Method This Dayton Man Reports Relieved Him Quickly

Mr. Wm. D. Ostermeyer, 326 E. Second St., says in his own home paper, the Dayton Daily News: "My bladder caused me to get up many times at night and also inconvenienced me as often as every 30 minutes in the day. After taking a few Lithiated Buchu tablets my bladder is perfectly normal. They also relieved a very lame back for me. It gives me much pleasure to tell my friends about these little tablets."

Lithiated Buchu acts on the kidneys and bladder like Epsom Salts do on the bowels. It cleans them out. It is not a patent medicine as the formula is on the package. The tablets cost 2c each. This price makes it possible to place in the formula several high priced drugs, which are useful for relief. Very likely you have never taken anything like this remedy. Try a few doses for backache, scalding, scanty or high colored urine, and frequent desire at night.

You can get Lithiated Buchu, Keller formula at Smith Drug and Book Store, Wimmer-Arnold Co., J. M. Robertson, Siegrist & Williams and drug stores everywhere, or write The Keller Laboratory, Mechanicsburg, O.

Don't let a poor skin spoil your pleasure

RESINOL
Soothing and Healing

Everyone Should Drink Hot Water in the Morning

Wash away all stomach, liver, and bowel poisons before breakfast.

To feel your best day in and day out, to feel clean inside; no sour bile to coat your tongue and sicken your breath or dull your head; no constipation, bilious attacks, sick headache, colds, rheumatism or gassy, acid stomach, you must bathe on the inside like you bathe outside. This is vastly more important, because the skin pores do not absorb impurities into the blood, while the bowel pores do. To keep these poisons and toxins well flushed from the stomach, liver, kidneys and bowels, drink before breakfast each day, a glass of hot water with a teaspoonful of limestone phosphate in it. This will cleanse, purify, and freshen the entire alimentary tract before eating more food. Get a quarter pound of limestone phosphate from your pharmacist. It is inexpensive and almost tasteless. Drink phosphated hot water every morning to rid your system of these vile poisons and toxins; also to prevent their formation.

"MY LITTLE GIRL HAS GAINED 15 POUNDS," SAYS HAPPY MOTHER

Little Rhode Island Girl Is As Bright and Cheery and Her Cheeks Are As Rosy As Ever

SHE CAN NOW KEEP UP IN HER CLASSES

"Only a Mother Can Understand What I Suffered When I Saw My Daughter Slowly Wasting Away," Says Mrs. Mary Smith.

"Every time I look at my little girl's rosy cheeks my heart goes out in praise and gratitude to Taulac," said Mrs. Mary Smith, of Peacedale, R. I., a suburb of Providence, recently.

"Until Mary was eleven years of age she always enjoyed good health and had a very happy, flourishing disposition. However, during the past three years she became very thin and frail. She looked on a very yellow color, her tongue coated over, she complained of a bad taste in her mouth, dull headaches, and of feeling languid and tired all the time. She lost her sunny disposition and became nervous, irritable and moody. Her appetite got so poor that I had to coax her to eat. Her sleep was fitful, her eyes dull, and her steps so heavy that it seemed she hadn't strength to lift her feet from the floor."

"She had always stood high in her studies, but now her reports were so

bad that her teacher called on me to find out why she had gone back so in her lessons. When I asked her why she had failed so in her school work she cried and said she studies as hard as ever, but couldn't seem to remember. Only a mother can understand what I suffered when I saw my daughter slowly, but surely, fading away each day. I could hardly keep back the tears when I looked at her."

"Six months ago we took her out of school, thinking this might help her, but she continued to grow worse. We were told she would get better when she got older, but I was afraid she couldn't live and have shed many a tear over her condition. In fact, my husband and myself, both, were down right sick with worry over her, and yet, nothing did her any good."

"One day my husband said, 'Why not have Mary try Taulac? Each morning I have read in the papers of someone being helped by it and it may be what she needs.'"

"Well, I had tried everything else, so as a last resort I had Mary take Taulac and I have felt thankful a thousand times that I did. Before she finished the first bottle she was eating like I have been wanting to see her eat for three years. Now she is the first to the table and the last to leave. She has gained fifteen pounds and is still gaining, and her face is as round and rosy as it ever was. Her eyes sparkle with health, her steps are light, and she is as full of life as a kitten. It does my heart good to hear her running around, singing and laughing and enjoying life and good health again. My gratitude to Taulac is unbounded."

"Taulac is sold in Coshocton by Stegert & Williams and leading druggists everywhere."

With her parents, Mr. and Mrs. C. Ankerman.

Mrs. Ernest Fisher made a business trip to Coshocton, Friday.

Miss Mabel Troyer, of Kent Normal School, spent several days here, last week.

OLD AGE, HIS MARK! Oliver Wendell Holmes, in the charming discourse of "The Professor at the Breakfast Table," refers to an unmistakable sign of old age. It is three parallel lines between the brows. We can detect the first traces of disease by signs just as plain.

When a woman suffers from backache, nervous depression, dragging-down pains, and those ailments peculiar to women, it is plain that she needs a woman's medicine. What other medicine could she more wisely resort to than Lydia E. Pinkham's Vegetable Compound, which for half a century has proved the natural restorative for these troubles?

LIFE IS SWEET IN GOOD HEALTH

Weak Blood Causes Baffling Feeling of Exhaustion

There is nothing so sensational as living in the glow of good health, and nothing so easy as existing in the bleakness of disordered health.

There is the direct testimony of medical and ordinary experience to prove that Gude's Pepto-Mangan restores poor blood to its natural healthy state. Physicians know its value and have prescribed it for years. Tens of thousands of men and women and children rely upon it. Pepto-Mangan revives blood which has grown thin and weak and which has left its mark on the complexion and the disposition. Features hardened by sour feelings soften into a pleasing expression. The sensation of living—tasting, breathing, seeing the colors in sunshine, scenting the perfume of flowers, relaxing in the sweet refreshment of sound sleep—everything is enjoyed with intensity. It is red-blooded living. Gude's Pepto-Mangan has the name on the package and is sold by your druggist in liquid or tablet form.

The One Way Out

MANY newspapers are arguing with what doubtless seems to them great eloquence and logic that the submarine, the airplane and poison gas should be forever eliminated from warfare. One eastern paper speaks of them as "these stealthy creations of Hell." They are doubtless that and all the other hard names they have been called in type.

But how will the plans of these newspapers work out? The opponents of the above three methods of warfare are assuming that all is needed is for the Washington conference to go on record against them. That done and the world will be instantly freed from the horrors of these three developments of the late world war. It is a beautiful picture, but those who so eloquently and strenuously advance the plan fail to explain how a resolution passed even unanimously by the Washington gathering is going to bind the rest of the nations of the world.

It is all right for the Washington meeting to resolve against the super-surface fighting ships for only three nations, England, Japan and the United States any longer indulge in this form of military pastime. But what of the countries that are not represented at Washington? A hard and fast agreement on the part of the only three powers that build big battle ships is within the scope of authority of the conference because these three powers have authorized delegations and their action to this effect can be considered as practical and binding.

But when the Washington conference enters the field of submarine, airplane and poison gas limitation it is tackling a problem too big for it to handle. Suppose England, Japan and the United States should resolve in good faith to cut out these three forms of warfare altogether and even secure the assent of France and Italy? Such action, no matter how seriously entered into, could by no possible stretch of the imagination be made to cover the smaller nations. And if lived up to by the countries named above could only result in making them easy targets for a number of smaller but ambitious and warlike powers at any time they should decide to go on a rampage.

Brian says the dreadnaught and the super-surface battleship is the toy of the rich nations. But poison gas is cheap, extremely cheap, and could be manufactured and poured out in limitless volumes by the poorest and smallest of nations. Equally, the airplane and the submersible are within the grasp of the poorest of nations. Obviously, then, any resolving to eliminate them from future wars must take in the poorest of nations as well as the richest and most powerful.

As has been suggested in this column before, England's hostility to the submarine is based on the flimsiest and most obvious of reasons. She is purely a maritime power. Her daily life depends on the uninterrupted flow of her gigantic ocean traffic. She is widely remote from her nearest colonial possession and the submarine looks as if it were especially designed to wage war on the great island empire. Eugene J. Young, in his articles, has already pointed out to our readers how France and Italy are bitterly opposed to the submarine limitations proposed by Great Britain.

Equally would it be against the naval policy of this country to submit to any such limitations. Our territory is closely knit, but we have an immense sea line and the submarine is the handiest of all weapons to protect our shores from invasion. Why, then, should we be duped by England into a form of naval limitation that would be a 100 percent benefit to her and a 100 percent disadvantage to us, should we be attacked?

And as before suggested in this column why is starvation for England via the submarine route and more detestable and horrible than starvation via an immense cordon of dreadnaughts? Starvation is the same to all peoples no matter by what means superinduced. And death by poison gas is the same death that the shrapnel and sabre inflict. So, our journalistic friends which rail at certain forms of warfare and are eloquently silent as to others quite as deadly, are silenced by their own inconsistency and lack of logic.

Obviously, the only rational manner in which to approach the subject of limitation of war in any of its phases or as a whole, is not by two nations, or five, but by all nations of sufficient consequence to produce a poison gas or build a submarine or an airplane. It is a game at which all can play and which will be played so long as there is no general agreement to abolish it as a means of settling international disputes.

In other words, the League of Nations, in which are represented fifty-one nations, and not the little group of powers assembled at Washington, is the logical organization to grapple with this stupendous problem of war. The delegates already see this fact as their own limitations are daily and hourly im-

pressed upon them. Mr. Harding gives evidence in numerous expressions of realizing the same stern fact.

And no matter by what name it is called, when any real step is taken toward ultimate world peace it will not be taken, it cannot be taken, by the few nations now represented at the Washington conference, but by all the peoples of the earth. It may be a League of Nations, it may be an Association of Nations, it may have an entirely different name, but in effect it will be the same old League and all the spiteful groups in the United States senate will not eventually be able to defer this very consummation.

Either the inexpressibly narrow and childish policy of our senate will have to be reversed, and that soon, or the world is destined to see the institutions the peoples have reared with such infinite pains within the past ten centuries go to smash. These institutions are hanging on the abyss today and even the reactionary members of the cabal who preferred to vent their childish spleen against President Wilson rather than witness the consummation of that "parliament of Man, the Federation of the world," are at last realizing that they have been playing with fire.

World problems must be met in a world-wide way or else not met at all. The questions which vex the Washington conference will never be solved until a solution agreeable to a League of Nations has been reached.

New York Day-By-Day
By O. O. McINTYRE

NEW YORK, Nov. 29—The passing of Louis Martin in Paris floods the memory with thots of gay Manhattan nights—nights of the popping cork and scarlet claw. Martin's—pronounced Mawrtin's—was the first of the truly Parisian cafes. It opened in the shadows of Washington Arch and one sat and watched an absinthe drip, played dominoes, cubito and read La Vie Parisienne.

Martin's only "flap" was when he opened an opulent place at Broadway and Forty Second street. He issued an imperial ukase that all must come in full evening dress, even women's clothes or, as they say in South Bend, the Tuxedo were barred.

The public resented this altho now in the hotly toty places the same order is enforced yet thru a head-waiter's diplomacy in groveling his simulated sorrow that all tables are reserved.

It was at old Martin's that Harry Thaw and Evelyn Nesbit dined the night of the Madison Square tragedy. Stanford White was in another part of the room. Thaw glared at him across the tables and later pistolled him to death at the Garden.

The ensuing publicity Louis Martin estimated made him more than a half million. Martin had waiters whose names now blaze before their own cafes—Pierre, Louis, Alfred, Kurth, Peter and Gaston. These were men who had the gift of dignity in servitude. They stood apart and their like is seen no more.

The old Cafe Martin was at Ninth St. and University place and is now known as the Cafe Lafayette. It

UNPOLISHED RICE. POLISHED RICE.

MODERN FORMS OF COOKERY DESTROY THE VITAMINES IN FOOD. TAKE DR. CAREY'S MEDIC-YEST TABLETS. SUPPLY THIS NEED.

Rice like most cereals carries its vitamins just inside the outer coat and when this layer is polished away the vitamins are destroyed. The vitamins so prominent in raw vegetables and fruits are lost in the cooking. Thousands who have plenty of well cooked food are actually underfed and starving for lack of vitamins. Children weak, nervous, anemic, thin, haggard looking women and men, under weight, weak men and women, lacking for vitamins can get sufficient vitamins from proper milk diet and fruit juices, but adults require more vitamins than children and do not get enough in their food to keep them strong and well.

Eat more vitamin containing vegetables and fruits, such as lettuce, spin-

WALT MASON WINTER WORRIES

Winter brings its own diseases, calling for a change of pills; when the climate ups and freezes, there's a brand new set of ills; so I put away the bottles that the summer saw me buy, for frigid winter throttles all the ailments of July. And with jubilant emotions to the pharmacy I scout, and buy up new pills and potions, hoping they are worth a hoot. Thus the winter time is giving satisfaction manifold; for a change makes life worth living, and it's routine makes us old. Every form of stern endeavor should be mixed with harmless play; doing one old thing forever takes one's pep and vim away. I was tired of taking bitters for my sunstroke and my hives, summer dopes that human critters must consume or lose their lives; now I have my winter ailments, rheumatism, croup and flu, with the usual derailments of a wishbone or a thew; ailments more or less distressing, foreign and domestic ills; but I count it quite a blessing to confront new kinds of pills. There is always something cheering, in this happy life we lead; always some attraction nearing, if we only give it heed. When the cold no longer pleases, and the winter seems a grind, spring will usher in diseases of a new and piquant kind. Novelities are to us trooping, always something new and strange, and the old world goes a-whopping down the ringing grooves of change.

WHAT THE NEW YORK EVENING TELEGRAM SAID OF "THE CONQUERING POWER."

"The new film deserves frequent visits and gains in power with each reviewing. The story is close to human experiences, the characters are living beings, and the work is transferred to the screen, the work of a great artist handled by a great artist, in another medium."

Honoring the fortieth wedding anniversary of Mr. and Mrs. J. J. Klein, also Mrs. Klein's fifty-seventh birthday, the couple were given a delightful surprise at their home, 338 Elm-st., Tuesday evening.

The affair was a dinner party of especially elaborate appointments, arranged by their sons. Centering the table was a huge birthday cake trimmed artistically in the color scheme of pink and white, bearing the number 57. On either side, pink candles, shaded with pink, and held in crystal holders, shed their soft glow over the whole. Bouquets of pink chrysanthemums, entwined with smilax were also used at either end of the table and throughout the room. A novel part of the affair, in keeping with the fifty-seventh year, were the clever imitations of the Heinz 57 varieties. Paper napkins, artificial dill pickles, miniature bottles of catsup and the like, bearing the famous signature, were used.

Attractive leather card cases gilt monogrammed were given the ladies as favors and bill folds, similarly made, were given the men.

Mrs. Klein was presented with a lovely platinum bracelet watch and Mr. Klein a beautiful gold watch.

Besides the guests of honor, places were laid for the following sons, their wives and children: Mr. and Mrs. William W. Klein and daughter Harriet, of Brooklyn, N. Y., Mr. and Mrs. Harry S. Klein and daughter Her-

then in the great war have not yet taught these hotbeds of Europe the lesson of peace and so in this country the disinclination to bind ourselves to send our young men to fight in these disputes has been solidly confirmed.

But, altogether, it must be confessed, the outlook is black—and where is the church?—any church, every church?—all churches should forget their trivialities and come to the rescue of humanity—work, march, pray, sing and preach to encourage this attempt to make the rules that govern apply to those aggregations of individuals called nations—in this pause of the battle for peace the reserves of the church should be clattering to the front—page Billy Sunday.

Must this effort fail and the world go back to fortified frontiers and outposts of hate? Is Bernard Shaw right? He says that the nearest dog fights tells us that war will never end.

We do not all think so. My father told me that in the forties he witnessed a scene in the old New York hotel, at Broadway near Waverly place, then the leading hotel of New York. A gentleman sitting quietly at his dinner was attacked by another who threw a glass of claret over the quiet one. No challenge followed—no duel, and because of his failure to resent the insult from a drunkard in the manner the fashion of the day demanded, because this quiet gentleman did not think it necessary to risk his life before the pistol of a noted duellist, he was ostracised, boycotted,

sent to Coventry and compelled to leave society and New York.

We can progress—we have progressed since that day—private war has been abolished. Can we do away with public war?

Have the thousands of martyrs of religion and democracy died in vain? The corpses of the fallen in this great war placed head to heels would reach around the world.

When H. G. Wells, the great British novelist came to this country to write of the conference, Ralph Pulitzer gave him a dinner. There were there those literary and those financial and those political. When Wells rose to address them he spoke in a most pessimistic vein, "We are all," said he, "on a sinking ship, and all our present life and civilization is in danger of foundering." It was refreshing to see the other guests headed by Young Chalmers Dewey (only 87) rise, one by one, and cry out the gospel of optimism. Even the tactful speech of Max Eastman, the revolutionist, was tinged with the colors of the rainbow.

We in America are invincible in our optimism. The ship on which we are embarked shall not sink. No. We will load the old ship with good wishes and ideals and help and hope and sail it, a relief ship of the imagination, into every port of the world.

WHAT THE NEW YORK EVENING MAIL SAID OF "THE CONQUERING POWER."
"When 'The Four Horsemen' scored wonder was expressed if he (Rex Ingram) could ever equal that work. fallacious promise. Japan holds that the inclusion of ships under construction in total capital tonnage is unreasonable. For Japan is constructing only three capital ships while America has, I believe, sixteen ships included in its capital tonnage which are now in course of construction.

Japan is not gauging its future naval strength on a "defensive basis," the expert revealed.

"My nation does not plan an offensive war, but in the cold light of naval technology. Japan must have a navy of offensive strength to wage successfully any defensive war. If an enemy fleet of ten ships laid siege to Japan we would have to send out at

LABOR CONVENTION CALLS PARLEY FAKE

NEW YORK, Nov. 30.—At a meeting in the New Star Casino here, the arms parley in Washington was characterized by representatives of labor and workers' organizations as a meeting of imperialistic powers to divide up the spoils of the war. The meeting, under the auspices of the American Labor Alliance, was attended by nearly 1,000 persons, who cheered the references to the arms parley as "a grand, glorious fake."

"Disarmament as discussed in Washington," said Edward Lindgren, secretary of the Workers' League, "means nothing to the working men and women of America. The capitalists are not going to disarm. They are going to keep their navies and machine guns and armies to maintain the existing industrial order and keep the working men and women in subjection."

"The United States today," said J. Louis Engdahl, secretary of the Workers' Council, "is leading the world in imperialism, of which Washington has become the center."

HIP HOOPS ARE FEATURES OF LATEST EVENING GOWNS

Pictured here are three charming dance frocks for wear during the holiday festivities. One always feels the need of a new frock at holiday time for the dances, teas, dinners and receptions which always fill those festive days. When so many affairs come all at once one or even two evening gowns were scarcely sufficient. These are charmingly youthful models all featuring the hip hoops and all combining chiffon with some other fabric. Any of these models would make a lovely Christmas gift for the college miss who is always in need of "another" dance frock.

OHIO FEDERATION OF WOMEN'S CLUBS

By Mrs. George Elliott McCormick, Director of Press

Of Major Importance
That the child welfare division of the Ohio Federation of Women's Clubs is of major importance this year, as in former years, is the opinion voiced by the head of the child welfare department, Dr. Josephine Peirce, of Lima. This division of the state federation not only has a particularly broad scope of work embracing universal child health, but it carries a program of such forward-looking plans and standards for those phases of child life that include and emphasize the outstanding need of education, play work and community environment of the most wholesome character.

Dr. Peirce asks federated clubs in Ohio to organize child welfare divisions. She wants them to initiate child welfare work, include child welfare topic on all yearly programs and to keep step with the national and state welfare departmental work. Much constructive work can be done by furnishing milk to underweight school children and in equipping the schools with scales, charts, etc. Dr. Peirce points out "Teach children the value of vegetables and try to develop a desire or taste for them," she says. "Supervised playgrounds have an important place in the child welfare program."

"Every club woman ought to become fully informed on the contents of and the purposes of the Bing compulsory education and child labor law. I would urge for the coming year the extending and enlarging of the child health program cooperation with the state division of charities and a closer sympathetic relationship with our schools and teachers."

In Akron club women are placing much stress on their aim "Teaching Motherhood as a Profession" and dwelling especially on "How to Tell the Story of Life."

"Our work this year is of the kind that demands self-sacrifice on the part of the workers," writes Leah C. Chittenden, secretary of the Home and School League at Akron, "but believing that the children are our greatest national asset we believe our work has not been in vain."

"Is It Worth While?" That was the theme of Mrs. Cornelius S. Selover's address at Troy recently when more than 200 attended a reception conducted by the Alturian club in honor of the state federation's president.

Mrs. Allen Marshall, of Piqua, state treasurer, and Mrs. C. G. Snook, of Troy, vice president of the Northwest district, were also honor guests.

"The question is often asked 'Is it worth while—the hours, days, weeks and months that stretch out into years of service?'" Mrs. Selover began her charming address after being presented by Mrs. Addison Broomhall, of Troy, past president of the Pioneers.

"The answer is found in the individual's viewpoint," Mrs. Selover said.

WILLIAM S. HART HAS POLICEMAN'S ROLE IN HIS LATEST PICTURE

FAMOUS PARAMOUNT STAR IN HIT
Famous Paramount Star in Striking New Part in "The Cradle of Courage."

In "The Cradle of Courage" which comes to the Uthanna theatre Friday and Saturday, William S. Hart, the famous Paramount star appears as a policeman—one of the most striking roles he has had in many months.

It is a complete departure from his recent western dramas but none the less effective, for it gives him a characterization that places heavy demand upon his versatility and dramatic power. As a result he is certain to elicit new praise from the thousands who have admired his splendid portrayals for seasons past and who will welcome his new productions with open arms.

This the third of his personal productions for Paramount and is regarded as fully up to the high standard set by "The Toll Gate" and "Sand!" the two preceding pictures.

The "Barbary Coast" in San Francisco, the haunt of the submerged tenth, the underworld habitues, crooks and others, is the scene of the story which shows the transformation of a man in the vortex of great events how he wins honor and love after youth spent in the lowest circles of society.

It was adapted by Lambert Hillyer and also directed by him Joe August, A. S. C., was the photographer. Ann Little is leading woman and Thomas Santchi has the heavy role. Gertrud Clair also has a strong character role.

Wright, the saxophone wizard, with those real singers will furnish the music for the Moose Defenders dance Saturday eve.

Wrights Players Here

The music lovers of this city and the dance patrons will have an opportunity Saturday night to hear Wright's Original Saxophone orchestra, from Columbus, render a variety of high class musical selections at Moose hall.

This is the first appearance of Wright's Original orchestra in this city since in February, 1919.

Another one of the Moose Defenders delightful dances Saturday evening with Wright's original saxophone orchestra.

M'Gannon's Tool Gets Prison Term

CLEVELAND, Nov. 30.—Charles H. Selver was today sentenced to serve from five to ten years in the Ohio penitentiary, following his conviction by a jury last night on a charge of perjury, in connection with the murder trials of former Judge William H. McGannon.

"You have been the dupe and tool of McGannon," said Judge Wolfe in imposing sentence. "I feel sorry for you, but there has been too much perjury in this case and you must pay the penalty."

MAYOR BELIEVED IN FREE SPEECH RIGHT

CHICAGO, Nov. 30.—Mayor Hale Thompson, of Chicago, was within his constitutional rights in expressing disapproval of the draft act and of America's entrance into the World war, his attorney, David H. Jackson, declared today in circuit court. The Chicago Tribune is being sued by the mayor for \$500,000 for libel.

"They are trying to prove treason by mere words," said the attorney. "He did not advocate resistance."

Judge David Brothers, before whom the case is being tried, interrupted to quote the mayor's words, "I am dead against the selective draft act and I am opposed to America's entering the war."

"If those words are not seditious, I'd like to know what is?" said the judge.

EDUCATION WEEK

WASHINGTON, Nov. 30.—Calling attention to the fact that five million American boys and girls are not availing themselves of free school advantages President Harding issued a proclamation designating the week of December fourth as Education Week.

During this week the president urges citizens give special and thoughtful attention to the needs and aims of public schools.

The president pointed out in his proclamation that public education is the basis of citizenship and is of primary importance to the welfare of the nation.

POSTPONE ZERO HOUR OF DISARM MEETING

Final Show Down Put Off
24 Hours As Special Force

WASHINGTON, Nov. 29.—The date of the final showdown on acceptance of the American naval program was postponed 24 hours today at a request of one of the foreign delegations.

The committee of naval experts the five great powers was scheduled to meet at 10 o'clock for a final session regarding the capital ship ratio of 5-5-3 proposed by Secretary Hughes. When the meeting hour arrived, however, it was announced that "one of the foreign powers" has requested a postponement of the session 24 hours.
